Customer cases :

Techtide GO Cards simplifies the card ordering and management process, offering a secure and comprehensive service, including ordering and production. The online service provides complete lifecycle management, secure onboarding and offboarding of users, an automated ordering process, and the production of ready-to-use cards.

About :

At TechTide, part of IN Groupe, we believe in securing society by enabling trusted identities. As a leading European company specializing in innovative identity management, we are committed to shaping a safer society by providing trusted identities for people and things.

Our comprehensive portfolio of identity and security solutions enables organizations of all sizes and industries worldwide to issue, manage, and utilize trusted identities for their workforce, workplace, and the Internet of Things (IoT).

With close to 300 dedicated employees across Europe and Asia, and a vast global partner network, we are growing to become a leading global player and contributor to a safer society.

“Persistence is very important. You should not give up unless you are forced to give up.”
